EBA NEWS

EBA welcomes 90th member!

ETW Energietechnik GmbH has been developing and producing energy plants in Moers, Germany, since 1997. [\[read more\]](#)

EBA announces new partnerships

Biogas World and the Gasification and Syngas Technologies Council are now official partners of EBA. [\[read more\]](#)

EBA returns from another successful edition of Biogas Science

The event saw its last edition in Szeged, Hungary, on 21-24 August. [\[read more\]](#)

EU NEWS

The European Commission publishes its new legislative Summer Package - the focus on low-emission mobility

On the 20th of July the European Commission published a new set of proposals to implement the COP21 commitment to reduce GHG emissions of at least 40% by 2030. [\[read more\]](#)

European Commission approves biogas support schemes in Czech Republic

The schemes for electricity and heat are in line with EU state aid rules and they will increase the energy produced from renewables. [\[read more\]](#)

COMPANY NEWS

Evonik has performed life cycle analyses for around 70% of its sales

The next plan is to extend the analysis to 80% of external sales. [\[read more\]](#)

BDI - BioEnergy International AG celebrates sales increase

The company has seen its sales increase in the first half of 2016. [\[read more\]](#)

SCIENTIFIC NEWS

Possible source for new antibiotic found at AD plant

Anaerobic digestion plant in the UK potentially produces antibiotics that could be developed to combat future “superbugs”. [\[read more\]](#)

Denmark opens new renewable energy research centre

VILLUM, Center for the Science of Sustainable Fuels and Chemicals inaugurated in Copenhagen. [\[read more\]](#)

COUNTRY NEWS

Germany: Application open for “Biogaspartnership of the year” award

dena awards biomethane products and projects. [\[read more\]](#)

Finland: Biogas certificates allow easier access to the benefits of biogas

The Biogas Certificate is part of the development of the gas market, based on good examples from other countries. [\[read more\]](#)

Italy: Another successful season for New Holland prototype T6.180 Biomethane Power tractor

After Spain and United Kingdom, the New Holland prototype tractor was tested at a farm near Turin. [\[read more\]](#)

UK: Ice cream waste for bioenergy

The production’s by-product will be transported a nearby AD facility, upgraded to biomethane and then injected into the National Grid. [\[read more\]](#)

Brazil: “Low Carbon Business Action” program to support EU companies investing in Brazil

European Union is sponsoring the program to support business development and create opportunities for EU companies in Brazil. [\[read more\]](#)

Germany: International Biogas Operating and Engineering

IBBK, a German company is organising a 5-day intensive biogas training. [\[read more\]](#)

Italy: CIB meets the Italian Energy Services Management Agency

Italian agricultural biogas sector keeps moving towards production of biomethane. [\[read more\]](#)

The Global Biogas Upgrading market report

The outlook of the Global Biogas Upgrading market 2014-2022. [\[read more\]](#)

In partnership with 

Biogas production increased thanks to compostable bags

Successful examples in Milan, Catalonia and Munich favour biowaste collection bags. [\[read more\]](#)

In partnership with 

Netherlands: Two new biogas plants planned

The support plan developed in the Netherlands attracts two more players in the biogas market. [\[read more\]](#)
